How do I get trained for the 3Rs?

The FC3R website lists a large number of training courses from research organizations, universities or training centers.

To find a 3Rs training course, the "[3Rs Training](#)" section has been equipped with a search bar.

And to extend our database, don't hesitate [to propose your course](#).

Featured training

[The *C. elegans* model: culture, manipulation, observation and applications](#)

12.06.23 - 16.06.23, CNRS formation, Orsay

[Reproducible research: methodological principles for transparent science](#)

Du 20.03.23 - 31.12.23, Inria, MOOC

Towards the end of rabbit pyrogen tests ?

About 30,000 rabbits are still used each year in Europe for pyrogen tests, of which more than a third are in France. Why and how can we do without these tests ?

Descroix-Vernier EthicScience prize winners

The Descroix-Vernier EthicScience prize rewards innovative research projects that don't use animals. Focus on the awardees and their projects.

[Read the news](#)

Let's open up science

Open science is the free dissemination, to all, of the results, methods and products of research, to make it more transparent, more efficient and more ethical.

Focus on

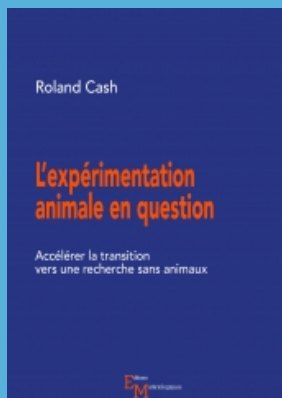

Call for applications for the Kastler Prize

The call for applications for the Kastler Prize of the Fondation droit Animal 2023 is open until June 30. This prize encourages research and the application of experimental methods that do not use animals. The amount of the prize is €4000. [Read more](#)

Call for proposals: Innovative non-animal human-based tools and strategies for biomedical research

Launch of the call for projects on 30 March 2023 by the European Commission's Health Horizon 2024 cluster. Proposals should develop and/or use tools and strategies that address critical areas of biomedical research where animal models have limited translational value. Budget €25M (of which €4-5M per project). [Read more](#)

L'expérimentation animale en question

By Roland Cash

Publisher : Editions Matériologiques

Doctor, PhD in pharmacology, vice-president of Transcience and member of [GIS FC3R advisory board](#), Roland Cash analyses the main problems of the use of animals for scientific purposes and proposes perspectives for an evolution of research without the use of animals.

SEMINAR Les PNH à l'ère des 4R

10 mai 2023
Ecole du Val de Grâce,
Paris
Supported by FC3R

CONFERENCE Alternatives To Animal Experimentation

6 juin 2023
Romainville (France)
The FC3R will be present

MEETING EUROoCS Annual Meeting - MPS World Summit

26 au 30 juin 2023
Berlin (Germany)
The FC3R will be present
